Terms highlighted in green are defined in the Glossary.

Introduction & Context

This Relationship Agreement aims to articulate the relationship between Cardiff University and Cardiff University Students' Union and outlines the basis for the relationship between the parties and the principles under which they operate.

The agreement has drawn on the guidance provided by the Higher Education Funding Council for Wales (HEFCW) in Circular, '*Revised guidance on good practice in funding of effective, democratic student unions, and student representation*' (Ref: W14/06HE).

This agreement serves as the Code of Practice defined in and required by Section 22 of the **Education Act 1994**; and in accordance with the provisions of this Act, Cardiff University must ensure that the requirements applicable to the Students' Union are applied.

Principles

1. Status of Cardiff University Students' Union

Principle: *Cardiff University Students' Union (the Union) is the recognised Students' Union of Cardiff University for the purposes of the Education Act 1994.*

The Union is a Students' Union, as defined in the **Education Act 1994**, with internal regulations and rules approved by its Board of Trustees and the **University Council**, which is the University's **governing body**. The Union is a registered charity (Charity No: 1137163) and company limited by guarantee registered in England and Wales (Company No: 07328777). The Union is independent of the University and is a **charitable company**. It is therefore constituted by its **Memorandum and Articles of Association**. It is governed by a Board of Trustees, who act as Directors for the purposes of company law and Trustees for the purposes of charity law. This is because of the Union's status as a **charitable company**. Decisions of the Board of Trustees require majority agreement.

The Union has the right to manage its own affairs and funds as defined within its **Memorandum & Articles of Association**, jointly approved by the University at intervals not exceeding five years. In accordance with the **Education Act 1994**, the University Council has a statutory duty to ensure that the Union is run in a fair and democratic manner and is accountable for its finances.

The Union has a subsidiary company controlled by the Union by virtue of sole membership: Cardiff Union Services Limited (CUSL). This company, along with the Union, are reported as a group.

The Union's **charitable objects** are the advancement of education of students¹ at Cardiff University for the public benefit by: promoting the interests and welfare of students at Cardiff University during their course of study and representing, supporting and advising students; being the recognised representative channel between students and Cardiff University and any other external bodies; and providing social, cultural, sporting and recreational activities and forums for discussions and debate for the personal development of its students.

¹ As defined in Cardiff University Statute 1 (2.10)

2. Strategic Partnership

Principle: *The University and the Union work in partnership to inform the development and implementation of mutually supportive strategic plans.*

The University and the Union have strategic plans which aim to enhance the education and experience of all students at the University. The Elected Officers and Union staff meet regularly with university staff at all levels in a range of formal and informal settings to further their respective strategic objectives.

The Union reports its activities and identifies areas of concern through regular reports to the **University Council** and in meetings with university staff at all levels. The Union's elected President and the appointed Chief Executive meet regularly with the University's Vice Chancellor and Chief Operating Officer and University Secretary respectively, and the University's senior staff meet regularly with the Union's Elected Officers. The Vice-Chancellor meets every term with all sabbatical officers (as well as meeting monthly with the Students' Union President) and holds Student Town Halls each academic year. There is also a Partnership Group (chaired by the Pro Vice-Chancellor Education and Student Experience and Students' Union President) that meets monthly to progress activities between the Students' Union and University. This is an informal meeting between the University and Students' Union intended to discuss emergent issues and key areas for partnership working.

An annual induction for the Union's Elected Officers for the purpose of communicating the University's structures, governance, priorities and projects is jointly organised between the University and Students' Union. This includes at least two sessions with significant university senior leaders and managers to discuss the University and Officer priorities, an informal lunch between the University's Executive Board (UEB), and specialised sessions on the structures of the University. The induction also aims to establish relationships and provide a forum for discussing areas of mutual interest.

The University has the right to nominate two Trustees to become members of the Union's Board of Trustees, as defined with the Union's **Memorandum & Articles of Association**. The contribution of University Nominated Trustees is recognised as integral to the good governance of the Union. The Student Members of the Council shall comprise the Students' Union President and one other Union elected officer (representing postgraduates), as prescribed by the University's Ordinances. Recognition of the importance of the student perspective in university decision-making is demonstrated by the fact that there are student members on all major **University committees**, as well as advisory groups of the University.

In addition to student members on the University's **governing body**, there is student membership on other bodies which include: Senate, Finance & Infrastructure Committee, Investment & Banking Sub-Committee, People, Cynefin and Governance Committee, Education and Student Experience Committee, Academic Standards & Quality Committee, and a range of other Student Experience related groups (including the Welsh Language Executive Committee).

3. Student-Centred University

Principle: *The University and the Union share a commitment to developing and improving the student experience.*

There is a high level of engagement between the University, the Union and the student body. This partnership enables students to become independent and lifelong learners within a culture that fosters, champions and respects equality, diversity and inclusion. The Student Academic Representative (Rep) system and the Union's governing structures enable the University and the Union to continue work together to improve student satisfaction.

The Union supports the University's **strategy**, and specifically its aims of offering an excellent educational experience for students of all backgrounds and experiences, and a commitment to flexible lifelong learning that creates positive change. The University's current strategy is **Our Future Together**, which aims to provide an excellent educational experience for students of all backgrounds and experiences, and this is supported by the Union.

The Union exists to promote the interests and welfare of students during their course of study and representing, supporting and advising students. It is the recognised representative channel between students and Cardiff University and provides social, cultural, sporting and recreational activities and forums for discussions and debate for the personal development of students. These activities aim to support the safety and wellbeing of students, aid student retention and improve student employability in accordance with the University's aims.

In providing sports and recreational activities the University's Sports Department and the Union's Athletic Union and Vice President Sports work in partnership throughout the year to support students to take part in sports, ensure the success of those representing the University, and to deliver key events such as the annual Varsity event. The University is committed to ensuring consultation with the Students' Union and students when exploring changes which could directly impact students at Cardiff University.

Through regular communication and joint working, the Union's Student Advice Team and the University's Student Life Team mutually respect and support each other to promote and protect the interests and welfare of the student body.

4. Student Voice

Principle: *The University and the Union will work together to ensure opportunities for students to express their opinions and be partners in the decision-making of the University and the Union.*

The Unions' Elected Officers

The Union has seven full-time Officers (the Sabbatical Trustees) and [10 part-time Officers](#), who are elected through a cross-campus ballot to represent various constituent groups of the student body according to their job description. The purpose of these Officers is to engage with and represent students and work in partnership with stakeholders to communicate their views and interests to the University and external bodies. In the course of their work, Elected Officers will make use of different forms of campaigning, University Committee membership, and other formal and informal meetings with university staff and external bodies.

The Student Academic Representatives (Rep) System

Student Academic Reps are students who are elected by peers within their cohort to provide a vital link between their School and College to the Union and the wider University. Their main responsibilities are to represent their fellow students; help make decisions that improve the student experience; feedback these decisions to their cohort; and work in partnership with university staff to develop projects and initiatives.

The University and the Union jointly support the Student Academic Rep system and work together to ensure the representation of students at Programme, School, College, and University-wide level. The Union takes responsibility for recruiting, training and supporting the Academic Reps through the Student Voice Team within the Union. The University, through the Learning and Teaching Academy, supports the embedding of the Academic Rep system within **University Committees**. The appointment, and support, of Student Rep Coordinators within Schools is supported by the Learning and Teaching Academy and their roles operate through the School education and student experience committees, structures and processes. The University and the Union ensure that Academic Reps have access to relevant survey data, module enhancement results, and **Boards of Studies** minutes to support their work.

Student feedback and student surveys

To help understand the needs of students, the University and the Union engage in regular dialogue and collect feedback from students and use it to improve the student experience. Examples of data used in this way include but are not limited to: **National Student Survey (NSS)**, **Postgraduate Research Experience Survey (PRES)**, **Cardiff University Postgraduate Taught Survey (CUPTS)**, **Module Enhancement**, **Speak Week**, **Student Staff Panel Minutes**, **Focus Groups** and **workshops**.

The University and Students' Union work together, with students, to identify opportunities to continually improve the experience here at Cardiff and to share updates on successes. Ensuring students understand how their feedback is used and valued is a priority for Cardiff and the University and Union work closely together to support 'closing the feedback loop' through various annual campaigns. Students can hear about the improvements we make in several ways including keeping up to date on Student News and communications from your School, intranet articles, posts on Learning Central, and information posted around campus.

The Student Views

The Union gathers and documents in the Student Views key issues and concerns facing current students and provides suggestions for action.. A submission will be provided to the University when a concern or issue arises for which a formal Student View is deemed necessary. The University will respond to each submission. At the end of each academic year the Union will combine all submissions with an executive summary which will be submitted for review through the University's governance process.

The University commits to providing a written response to the annual combined Student Views and Executive Summary, and pro-actively works on solutions to the issues raised in partnership with the Students' Union. The University and the Union commit to supporting these activities and to monitoring and reporting the implementation of agreed actions. The response to the Student View is agreed, finalised and acted on in collaboration with the SU and then submitted to Council for assurance that the University is responding pro-actively and in partnership with the SU..

Student Consultation

The University commits to ensuring the Students' Union and students are appropriately engaged in consultation or relevant engagement activity whenever proposed changes which significantly impact students are developed. Where possible, consultation activity will be developed in partnership with the Students' Union and there will be clear routes for how students' views feed into the ongoing work of the University.

Governance

Students are represented on the University's governance structures through the Students' Union's elected officers and academic reps.

The monitoring of, and provision of strategic direction for Student Voice activity, sits with the Student Voice and Partnership Committee (SVPC). SVPC sits within the formal education governance structures for the University and feeds into the Education and Student Experience Committee (ESEC). The committee will:

- Ensure implementation of the Student Voice Framework and any required changes/updates
- Ensure that Student Voice activity is aligned with institutional strategy
- Take a synoptic view of Student Voice activity, drawing on the entire ecosystem and recommend changes and improvements as appropriate
- Monitor the response to and completion of actions from the Students' Union's Student View

5. Student Behaviour

Principle: *The University and the Union work cooperatively to investigate and hear student behaviour allegations relating to student groups, clubs and societies or individuals when on Union premises or when participating in Students Union activities and services.*

The University and Union have a process of joint investigation for matters relating to alleged behaviour of individuals and/or student groups, clubs and societies, reviewed annually by the University's Academic Registrar and the Union's Chief Executive. The process is designed to tackle student group behaviour concerns quickly, fairly and consistently.

The Union has an independent code of conduct for individual student members, applied in relation to student behaviour on Union premises or whilst participating in the Union's activities and services. The Union shares the details of serious and significant student behaviour incidents through an annual report submitted to the University's Student Life group. . The University is responsible for general student behaviour at the University and maintains associated policy, processes and procedures all of which allow students to seek advice and representation from the Union.

6. Equality, Diversity and Inclusion

Principle: *The University and the Union have a shared commitment to equality, diversity and inclusion and being an anti-racist institution.*

The University and the Union are committed to creating and supporting an equal, diverse and inclusive environment. The University and the Union aim to promote a dignified and principled community, where equality is promoted; diversity and inclusivity are valued, and individuals are respected; behaviour is guided by codes of academic integrity, ethics and good conduct; everyone accepts their responsibilities to each other; and the Welsh and English languages are treated on a basis of equality. The University has a Strategic Equality Plan to promote equality and achieve equality improvements, and this is supported by several related policies, including the Dignity at Work and Study Policy. Both the University's Plan and the Union's governing documents make specific reference to the equality of the Welsh and English languages.

The University promotes a climate of equal opportunity for all students and ensures it meets its responsibilities regarding equality, diversity, safeguarding and protected characteristics. The University provides Equality, Diversity and Inclusion training to staff within the University and the Union in order to ensure that these core principles are promoted. The Union is accredited with Investors in Diversity status and is committed to maintaining the standard.

7. Welsh Language

Principle: *The University and the Union have a shared commitment to equality, diversity and inclusion.*

The University and the Union are committed to treating the Welsh and English languages on a basis of equality, with equal respect and consideration. The University has implemented a Strategic Welsh Language Strategy to promote the use of Welsh on campus and to monitor progress; this strategy is supported by several related policies, including those that provide guidance on the University's statutory obligations to provide services in Welsh to students, prospective students, members of the public, and staff. The University's Dean of Welsh and the Students Union's Vice President Cymraeg will actively work in partnership throughout the year in pursuit of the University and Union's shared commitment to the Welsh Language.

The Students' Union has established a Welsh Language Policy and a Welsh Language Development Plan, both aimed at enhancing their Welsh language offerings and promoting its use. In recognition of their efforts in this area, the Students' Union has

been awarded the Cynnig Cymraeg accreditation by the Welsh Language Commissioner's Office.

The University's Welsh Language Standards (our statutory duties) [provide students with several rights](#) to use the Welsh language within the university, and these rights are actively promoted throughout each academic year.

8. Complaints Procedure

Principle: *There is a complaints procedure available to students who are dissatisfied in their dealings with the Union.*

Students who are dissatisfied in their dealings with the Union or claim to be unfairly disadvantaged by reason of having exercised their right to not be a member of the Union can make a complaint to the Union, in line with the Union's Complaints, Discipline and Appeals Procedure. If a student continues to be dissatisfied, they may [complain to the University](#) in accordance with the provisions of the **Education Act 1994**, and the University may refer the matter for investigation to an independently appointed person.

9. Freedom of Speech

Principle: *The University and the Union are committed to the principle of freedom of speech under the law.*

The Education (2) Act 1986 requires the University to take such steps as are reasonably practicable to ensure that freedom of speech within the law is secured for students, staff and visitors. The Education (2) Act 1986 also imposes a duty on the University to publish a Code of Practice on Freedom of Speech; which sets out the procedures and conduct required of those organising or attending meetings, or other activities.

The University and the Union follow an established external speaker booking procedure to ensure that freedom of speech within the law is maintained. All Union events, including those of affiliated student clubs and societies are captured within this procedure. The lawful restrictions on freedom of speech applied by the University are detailed within section 3.12 of the University's Code of Practice on Freedom of Speech.

In addition the Students' Union is required to put arrangements in place to assess if any activities require registration under the Foreign Influence Registration Scheme (FIRS) and will notify the University of any events that may require registration.

10. Data Protection and Sharing Data

Principle: *The University and the Union recognises the importance of an open relationship where information is shared appropriately and personal data is shared in a lawful and secure manner.*

The sharing of personal data is governed by a Data Processing Agreement between both parties that is reviewed biannually and is agreed in compliance with the University's Data Protection and Information Security Policies and the SU Data Protection Policy/Privacy Statements. The University's Student and Applicant Data Protection Notice provides further information on what student data is shared, how we share it and the reasons we share it. The Students' Union's privacy notice details the corresponding information for Students' Union held personal data that is shared with the University.

11. Mutual Support and Commitment

Principle: *The University and the Union are committed to the partnership, constructive interactions and mutual respect.*

The University's and Union's relationship is established within the University Charter, **Statutes** and Ordinances, and further detailed within the Student Charter and this

Relationship Agreement. The University and Union invest time and resource in the partnership and as a result have enjoyed a successful relationship over an extended period. Full, open and regular communication on issues likely to have an impact on the other party, the student population and/or other joint stakeholders are recognised as underpinning the continued success and strength of the partnership.

The University and Union recognise and respect the distinct role the other plays. The University recognises the value of a strong, independent student-led Students' Union empowered to determine and manage its own affairs.

The Union recognises the need for the University to balance the interests of a range of stakeholders within an increasingly challenging external context. The University and Union recognise that this can lead to differences of perspective, and when that occurs both parties commit to engaging in early, constructive dialogue that recognises the benefits of working together to improve the student experience.

12. Finances and Accounts of the Union

Principle: *The Union has the power to manage its own affairs and funds, in accordance with the provisions of the University's Ordinances and the financial agreement between the University and the Union.*

The University has responsibility under the **Education Act 1994** to ensure that the Union operates in a fair and democratic manner and is accountable for its finances. The University is committed to providing a **Block Grant** and other financial support to the Union with the structure of support, oversight and reporting detailed within a financial agreement. Financial support to the Union is subject to review by the Finance and Resources Committee, approval of the **University Council**, and is provided in accordance with the requirements of Ordinance 13 and the financial agreement between the University and the Union.

13. The University Union building and occupancy of University premises

Principle: *The Union occupies the University Union building on Park Place by lease from the University and occupies a selection of rooms at the Heath campus.*

The Union occupies the University Union building on Park Place by lease for a **Peppercorn rent**, and this non-financial support is intrinsic to the support provided by the University to the Union. The annual block grant made to the Union takes account of the Union's maintenance and running costs associated with the University Union building.

The Union occupies a selection of rooms within the Neuadd Meirionnydd and Main Hospital buildings at the Heath Park Campus without formal agreement, in support of the Union's activities and services at Heath Park. The University and Union commit to working together to ensure that physical spaces, activities and services are provided for Union activities at the Heath campus.

The University commits to enabling Union staff, officers and student groups to access University buildings in pursuance of the Union's aims and objectives. Similarly, the Union commits to enabling University staff to access Union spaces. University staff are also entitled to apply for associate membership of the Union or their student groups in order to participate in Union activities and services.

14. Affiliation to External Organisations

Principle: *The Union has the right to affiliate to external organisations in accordance with its objects and Charity Law. The Union decides its affiliations democratically in observance of the rules within its Memorandum and Articles of Association and in accordance with the provisions within the Education Act 1994.*

The Union publishes a list of external affiliations and fees paid to those organisations on an annual basis in its Trustees Annual Report, in accordance with the **Education Act 1994**.

The procedures to review affiliations to external organisations are detailed within the Union's **Memorandum & Articles of Association, Bye-Laws & Bye-Laws Appendices**. In line with the **Education Act 1994**, the **University Council** may determine the interval period for review, and the proportion of members required to request a review of external affiliations to be decided by secret ballot (in which all members of the Union are entitled to vote).

15. Allocation of Union Resources to Student Groups, Clubs & Societies

Principle: In accordance with the provisions of the Education Act 1994 the University expects that there be a procedure for the appropriate allocation of resources to student groups. The procedure for allocating resources to student groups and clubs should be fair, set down in writing, and freely accessible to all students.

The Union provides funding to student groups, clubs and societies via general and special grants. The process or application for funding is detailed on the Union's website (www.cardiffstudents.com) under the section for committee resources. Students can request further information by contacting any of the Union's Sabbatical Trustees or senior Union staff.

16. Status and Publication of this Agreement

Principle: The University and Union will review the Relationship Agreement annually.

The Relationship Agreement will be reviewed annually and seen by the **University Council** and the Union's Board of Trustees. It is published on the governance section of the University's website and the governance section of the Union's website, and is referred to in the University's induction process which students undertake annually.

18. Glossary of Terms

Block Grant

The Block Grant is an annual sum of money granted by the University to the Students' Union to financially support the Union's activities. The sum is agreed and awarded on an annual basis before the start of the academic year, as detailed in the Financial Agreement.

Boards of Studies

Formal meetings bringing together Head of School with appropriate staff members to discuss academic issues and support of education delivery relating to programmes delivered within the School, and in some cases jointly with other Schools. Further information can be found in the University's Academic Regulations.

Bye-Laws & Bye-Laws Appendices

The Students' Union's supplementary rules which form, with the Memorandum & Articles of Association, its governing documents.

Cardiff University Postgraduate Taught Survey (CUPTS)

An internal survey that gives Postgraduate Taught Students the opportunity to share their experiences of learning and teaching.

Charitable Company

A charity which is also a registered company. The corporate body must therefore comply with the charity law and the company law. This is a common form of incorporation for not-for-profit organisations in the UK.

Charitable Objects

A charity's 'charitable objects' are another way of referring to its purpose for existing. An organisation must have solely charitable objects to be a charity; and it describes what the charity has been set up to achieve. A charitable object is one which falls within the one or more of the 13 descriptions of purpose prescribed by charity law, and which is for the public benefit.

Education Act 1994

An Act of Parliament which sets out legal requirements relevant to Students' Unions and their parent institutions and detailing a series of duties imposed on the Students' Union and its institution. Section 22 of the Education Act 1994 includes the requirements to be observed in relation to Students' Unions.

Education & Student Experience Committee

A sub-committee of Senate, responsible for providing strategic direction and advising the university on all matters relating to education and the student experience across the full range of its provision for students. School and College Education & Student Experience Committees report into this committee.

Governing Body

The governors of any institution who are legally responsible for its management and administration. As charities both the University and the Union have a Board of Trustees; but in the University they are known as 'Council'.

Memorandum & Articles of Association

The Union's governing document. It is the legal document that creates the company and says how it should be run. The Union has Articles of Association because it is a charitable company.

National Student Survey (NSS)

A UK-wide survey that gives the opportunity for final year undergraduate students to share their opinions on the quality of their courses, which supports the institution in improving the student experience.

Our Future Together

The University strategy details its path to 2035. Further detail can be viewed on the University's website: <https://www.cardiff.ac.uk/about/our-profile/strategy/our-future-together>.

Peppercorn Rent

A legal term for a very low or nominal sum of money.

Postgraduate Research Experience Survey (PRES)

A UK-wide survey that gives Postgraduate Research Students the opportunity to share their experiences of learning and supervision at their institution.

Statutes

The University Statutes are one of the University's constitutional documents, because of its status as a body corporate by Royal Charter. The Statutes contain details of the members of the University, and the rules concerning the statutory bodies.

Student Staff Panels

Meetings held in the University that bring together Student Academic Reps and School staff to discuss issues affecting the student population at a local level.

Survey Management Group

Established to have overarching responsibility for strategic oversight of the all key student experience surveys. This group provides institutional approach to surveys from design to closing the feedback loop.

The Student View

A document produced by the Sabbatical Officer team in the Students' Union which offers a series of recommendations to the University, based on data and feedback from the student body about student life.

Student Voice & Partnership Committee

This group provides oversight of all matters relating to student voice and the enhancement of the University's partnership with the Students' Union and reports into the Education & Student Experience Committee.

University Committees

University Committees perform a variety of functions. Their terms of reference, as defined by Ordinance or other regulation, set out their membership, powers and duties and lines of reporting. The detail around the University's governance framework can be viewed on the University's website:

<https://www.cardiff.ac.uk/about/organisation/governance>

University Council

University Council is the governing body of the University and as such, is the supreme authority of the University. It has the ultimate power of decision in all matters affecting the University.
